

# EMAN FATIMA

## Software Engineer | Full-Stack & AI Systems

emaankhan63421@gmail.com | +92 328 6046585 | Sargodha, Pakistan | [linkedin.com/in/eman-fatima16](https://www.linkedin.com/in/eman-fatima16) | <https://github.com/Eman-fatimeh>

### PROFESSIONAL SUMMARY

Software Engineering student with hands-on experience building full-stack web applications and AI/LLM-powered systems using Next.js, React, FastAPI, and PostgreSQL. Proficient in implementing RAG architectures, prompt engineering, vector search, and secure RESTful APIs, with active exploration of agentic AI workflows and autonomous software systems.

### EDUCATION

**Bachelor in Software Engineering** — University of Sargodha

Sep 2023 – Jun 2027

- CGPA: 3.84 / 4.00

### TECHNICAL SKILLS

- **Frontend:** Next.js, React.js, JavaScript, TypeScript, Tailwind CSS, Bootstrap
- **Backend:** FastAPI, Python, Node.js, SQLAlchemy, JWT Authentication, RESTful APIs
- **AI & Machine Learning:** LLMs, Prompt Engineering, RAG Architectures, Vector Search, Google Gemini API, Agentic AI Workflows
- **Database:** PostgreSQL, pgvector, SQLite, MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, WordPress

### WORK EXPERIENCE

**Frontend Developer** | M1 — Sargodha

March 2026 – May 2026

- Built and shipped responsive, cross-browser web applications using Next.js, TypeScript, and Tailwind CSS, collaborating directly with clients to translate business requirements into clean UI components.
- Successfully delivered two commercial client projects end-to-end (rsistudio.net and Saqafat Bakery) from layout design to deployment.

**Frontend Developer** | U DEVS — Lahore

Jan 2026 – March 2026

- Developed dynamic, responsive user interfaces using React, JavaScript, and CSS frameworks to enhance user experience and ensure interface consistency across devices.

### KEY PROJECTS

#### VaultMind AI — AI-Powered Knowledge Base & RAG System

- Built a full-stack RAG application enabling users to upload documents and query them in natural language using Next.js, React, Tailwind CSS, FastAPI, SQLAlchemy, and PostgreSQL with pgvector.
- Implemented document chunking, vector embeddings, and customized prompt engineering with Google Gemini API to drive accurate semantic search and grounded AI chat responses.
- Designed secure JWT-based authentication to ensure complete data isolation across user document streams and chat histories.

#### Smart OPD — Out-Patient Department Management System

- Developed an automated workflow system for patient registration, token queue management, doctor scheduling, and appointment tracking with real-time queue displays.
- Technologies used: HTML, CSS, JavaScript, Python, FastAPI, SQLite.

### CERTIFICATIONS & COMMUNITY

- **Meta Frontend Developer Specialization** — Coursera | **AI for Everyone** — DeepLearning.AI | **Web Development** — Bano Qabil
- **UN Online Volunteer** — Food and Agriculture Organization (FAO) One Health & AMR Campaign (2026)
