SUMMARY

Software Engineering student with hands-on experience building full-stack web applications using Next.js, React, FastAPI, and PostgreSQL. Skilled in responsive frontends, secure APIs, and AI/RAG-powered systems, with a portfolio of independent projects covering authentication, databases, and vector search. Seeking a part-time/remote role to apply and grow these skills on a real engineering team.

WORK EXPERIENCE

Frontend Developer March 2026 – May 2026

M1, Sargodha

- Built and shipped responsive, cross-browser websites using **Next.js, TypeScript, and Tailwind CSS**, collaborating directly with clients on requirements and revisions.
- Delivered two client projects end-to-end — **rsistudio.net** and the **Saqafat Bakery** website — from layout to deployment.

PERSONAL PROJECTS

VaultMind AI — AI-Powered Knowledge Base

GitHub: <https://github.com/Eman-fatimeh/VaultMind>

- Built a full-stack RAG application enabling users to upload documents and ask natural-language questions about their own content, using **Next.js, React, and Tailwind CSS** on the frontend and **FastAPI, SQLModel, and PostgreSQL with pgvector** on the backend.
- Implemented PDF upload, text extraction, document chunking, and embedding generation, with **Google Gemini** powering semantic search and AI chat responses over each user's own documents.
- Designed secure **JWT-based authentication** and access control so each user's documents, chat history, and search results stay fully isolated from other users.
- Technologies:** Next.js, React, Tailwind CSS, FastAPI, PostgreSQL, pgvector, SQLModel, JWT, Google Gemini, Embeddings/Similarity Search

Smart OPD — Out-Patient Department Management System

GitHub: <https://github.com/Eman-fatimeh/SMART-OPD-Project>

Live Demo: <https://smart-opd-project-green.vercel.app/>

- Developed a system to automate patient registration, token/queue management, doctor scheduling, and appointment tracking, with a real-time queue display to reduce patient waiting time.
- Technologies:** HTML, CSS, JavaScript, Python, FastAPI, SQLite

EDUCATION

Bachelor of Software Engineering Sep 2023 – Jun 2027

University of Sargodha

- CGPA: 3.86

KEY SKILLS

- Frontend:** Next.js, React.js, JavaScript/TypeScript, Tailwind CSS, Bootstrap
- Backend:** FastAPI, Python, SQLModel, JWT Authentication
- Database:** PostgreSQL, pgvector, SQLite, MySQL
- AI / Other:** RAG & Embeddings, Google Gemini API, WordPress, Github

CERTIFICATIONS

- Meta Frontend Developer — Coursera
- Web Development — Bano Qabil
- AI for Everyone — DeepLearning.AI
